

Contents Volume 119

- 1 Pulmonary paracoccidioidomycosis in immunized mice
J. Defaveri, M.T. Rezkallah-Iwasso & M.F. Franco
- 11 Evaluation of the Pro-Lab ID ring system for the identification of medically important yeasts
A.S. Sekhon, A.A. Padhye, A.K. Garg & R. Rae
- 17 Effect of environmental factors on *Fonsecaea pedrosoi* morphogenesis with emphasis on sclerotic cells induced by propranolol
C.S. Alviano, S.R. Farbiarz, L.R. Travassos, J. Angluster & W. de Souza
- 25 Forty four years of dermatophytes in a Chicago clinic (1944-1988)
J.W. Rippón
- 29 Mycotic keratitis caused by *Curvularia brachyspora* (Boedjii): A report of the first case
L. Marcus, H.F. Vismer, H.J. van der Hoven, E. Gove & P. Meewes
- 35 The effects of *Fusarium oxysporum* f.sp. *lycopersici* (Sacc.) Snyder & Hansen on tomato in diphenamid-treated soil
M.S. El-Abyad, A.M. Abu-Taleb & M. Ghareeb
- 43 IMI Descriptions of Fungi and Bacteria, Set 113, Nos 1121-1130
K.D. Hyde, G.I. Johnson, E. Philemon & A. Sivanesan
- 65 Immunosuppressive effect of paracoccidioidomycosis sera on the proliferative response of normal mononuclear cells: Identification of a *Paracoccidioides brasiliensis* 34-kDa polypeptide in circulating immune complexes
D. Chequer-Bou-Habib, M. Ferreira-da-Cruz & B. Galvão-Castro
- 73 Partial suppression of cell mediated immunity in chromoblastomycosis
J. Fuchs & S. Pecher
- 77 Extracellular and mycelial amylases of the thermophilic fungus *Malbranchea sulfurea*
S.P. Gautam & A.K. Gupta
- 83 Incidence and significance of opportunistic fungi in leukemia patients in India
C. Rajendran, T.K. Basu, A. Baby, S. Kumari & T. Verghese
- 89 Evaluation of two vaccines for the treatment of pythiosis insidiosi in horses
L. Mendoza, J. Villalobos, C.E. Calleja & A. Solis
- 97 Studies on five species of *Pythium* parasitic on mustard and cabbage in India
S.C. Sati & N. Tiwari
- 101 Biochemical and physiological tests as aids to identification of *Verticillium* section *Nigrescentia*
M.A.J. Williams, B.L. Brady, P.D. Bridge & R.R.M. Paterson
- 115 Light and electron microscopic studies on experimental nocardia-toxicosis in mice
K. Terao, E. Ito, M. Oarada, M. Ohkusu, K. Yazawa, Y. Mikami & K. Igarashi
- 127 *Obituary*: Smith Shadomy, 1931-1991
R.A. Fromtling & D.M. Dixon
- 129 Growth of *Cryptococcus neoformans* in a thiamine-free medium
M. Bruatto, V. Vidotto & A.M. Maina
- 133 *Cryptococcus neoformans* varieties as agents of cryptococcosis in Brazil
R. Rozenbaum, A.J. Rios Gonçalves, B. Wanke, M.J. Caiuby, H. Clemente, M. dos Santos Lazera, P.C.F. Monteiro & A.T. Londero
- 137 Disseminated *Aspergillus terreus* infection in a caged pigeon
M. Pal
- 141 Studies on the relationship between the estrous cycle of BALB/c mice and their resistance to *Paracoccidioides brasiliensis* infection
A. Sano, M. Miyaji & K. Nishimura
- 147 Effect of nucleosides and nucleotides and the relationship between cellular adenosine 3':5'-cyclic monophosphate (cyclic AMP) and germ tube formation in *Candida albicans*
F.T. Sabie & G.M. Gadd
- 157 Woronin bodies in *Arthrinium* genus
J.V. Larrondo & Ma.A. Calvo
- 161 Purification and partial characterization of two extracellular keratinases of *Scopulariopsis brevicaulis*
H.K. Malviya, R.C. Rajak & S.K. Hasija
- 167 Production of zearalenone, moniliformin and trichothecenes in intact sugar beets under laboratory conditions
U. Bosch, C.J. Mirocha & Y. Wen
- 175 A biological assay for the detection of *Myrothecium* spp. produced macrocyclic trichothecenes
G.A. Bean, B.B. Jarvis & M.B. Aboul-Nasr
- 181 The effects of aflatoxin B₁ on immature germinating maize (*Zea mays*) embryos
M. McLean, P. Berjak, M.P. Watt & M.F. Dutton
- 191 Contents Volume 119 / List of Contributors
